

# Samy Essam Fareed

## Senior Frontend Engineer

[+201141627898](tel:+201141627898) | [samyessam2000@gmail.com](mailto:samyessam2000@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFILE

---

Senior Frontend Engineer (4+ years) specializing in Next.js, React, TypeScript.

Delivered government platforms, SaaS dashboards, e-learning systems, B2C/B2E travel solutions, corporate websites, and internal enterprise back-office systems with strong focus on performance, architecture, and user experience.

### EXPERIENCE

---

#### NHC Innovation • Full-time, Senior Frontend Engineer

05/2024 – Current

Cairo, Egypt • Remote

- Led frontend development for large-scale government platforms serving thousands of users.
- Building scalable and maintainable frontend architectures using Next.js, React, and TypeScript.
- Collaborating with cross-functional teams (Backend, QA, UI/UX, Product) to deliver high-quality user experiences.
- Improving application performance through code-splitting, lazy loading, and state optimization.
- Driving frontend best practices, code standards, and clean architecture across the team.
- Mentoring junior developers through code reviews, technical guidance, and architectural decisions.

#### Zeem • Part-time, Senior Frontend Engineer

05/2025 – 10/2025

Cairo, Egypt • Remote

- Contributed to building Zeem's Admin Dashboard, a Next.js-based system used to manage ride-hailing operations.
- Developed reusable and scalable UI components using Next.js, TypeScript, and Tailwind CSS.
- Implemented advanced UI patterns using shadcn/ui and Radix UI.
- Managed complex forms, validations, and workflows using Formik and Yup.
- Ensured full multilingual support (Arabic / English) with proper RTL handling.
- Worked closely with backend and QA teams to deliver stable and production-ready features.

#### Custom Mind • Part-time, Frontend Engineer

11/2024 – 05/2025

Cairo, Egypt • Remote

- Developed an educational web platform delivering online courses and learning modules.
- Built responsive and interactive user interfaces using Vanilla JavaScript, HTML, and CSS.
- Implemented dynamic pages and optimized UI performance without relying on heavy frameworks.
- Collaborated with the product team to enhance user experience for students and instructors.

## **E2E County • Full-time, Frontend Engineer**

12/2023 – 05/2024

Sheraton • On-site

- Developed high-performance frontend applications with a strong focus on scalability and maintainability.
- Refactored legacy codebases to improve readability, performance, and long-term maintainability.
- Integrated modern UI frameworks such as Material UI and Tailwind CSS.
- Worked closely with backend engineers to ensure smooth API integrations and data handling.
- Took ownership of improving frontend performance and reducing technical debt.

## **Syntrum Solutions • Full-time, Frontend Engineer**

03/2023 – 12/2023

Cairo, Egypt • Hybrid

- Transitioned from Intern to full-time Frontend Developer, contributing to production-level applications.
- Built responsive and interactive web applications using React, TypeScript, and Redux.
- Collaborated with designers and backend developers to deliver consistent UI/UX experiences.
- Implemented reusable UI components and followed best practices for clean code.
- Improved application performance and participated in bug fixing and refactoring efforts.

## **Syntrum Solutions • Full-time, Intern Frontend Engineer**

01/2023 – 03/2023

Cairo, Egypt • Hybrid

- Participated in an intensive frontend internship program focused on modern web development fundamentals.
- Worked on real-world projects under senior developer supervision.
- Gained hands-on experience with React, JavaScript, Git, and collaborative workflows.
- Improved debugging, problem-solving, and code quality through continuous feedback and reviews.

## **SELECTED PROJECTS**

---

### **FAL – Real Estate Brokerage**

- Developed a secure government real estate platform using Next.js, Redux Toolkit, and DGA UI with complex workflows, role-based access control, API integrations, and deployment restricted to Saudi Arabia servers.

### **Zeem – Internal Operations Dashboard (Back Office System)**

- Developed a full-scale internal operations dashboard managing trips, drivers, users, refunds, real-time tracking, RBAC permissions, and complete service lifecycle workflows.

### **Zerodrytime – Portal & Operations Dashboard**

- Built a multi-regional service platform (UK/EG) with ReactJS and RTK, including booking systems, operational dashboards, and scalable state management.

### **B2E Travel System (Travware)**

- Developed secure enterprise travel management tools with workflow automation, modular architecture, and full Jest unit test coverage.

### **B2C Travel Platform (Darts Travelers)**

- Built a customer-facing travel booking platform using Next.js and Tailwind with dynamic booking flows, responsive UI, and SEO optimization.

### Eduxa – E-Learning Platform

- Developed a scalable React-based e-learning platform with structured course delivery, authentication systems, dashboards, and performance optimization.

### Cosqpool – Educational Platform

- Engineered a responsive, high-performance educational platform with optimized content rendering and scalable frontend architecture.

### E2E Country – Corporate Website

- A highly optimized enterprise platform based on Next.js, and a dashboard for employee management and site control, featuring easy navigation, responsive design, and a performance-focused front-end architecture, have been introduced.

### Syntnum Solutions – Corporate Website

- Developed a modern corporate website using ReactJS and MUI with reusable components and optimized UI performance.

### Hakahana – Corporate Website

- Built a responsive static website using Bootstrap and Vanilla JS with performance and cross-browser optimization.

## SKILLS

---

- |                                                |                                              |
|------------------------------------------------|----------------------------------------------|
| • Next.JS (SSR, SSG, ISR)                      | • Scalable Frontend Architecture & Patterns  |
| • React                                        | • Performance Optimization & Core Web Vitals |
| • React Native                                 | • Accessibility (a11y)                       |
| • TypeScript                                   | • Version Control (Git, GitHub, GitLab)      |
| • JavaScript (ES6+)                            | • Agile Development                          |
| • Redux Toolkit (RTK)                          | • OOP                                        |
| • React Query                                  | • Data Structures & Algorithms               |
| • HTML, CSS                                    | • Problem Solving                            |
| • UI Libraries (MUI, Tailwind, Bootstrap, DGA) | • Unit & Component Testing (Jest, RTL)       |
| • Design Systems                               |                                              |

## EDUCATION

---

**bachelor's degree in information systems, Thebes Academy**

10/2018 – 06/2022

**GPA:** 3.15 (Very Good)

**Graduation Project** (Excellent): Smart Parking System (IoT) – Led a team of 6.

## LANGUAGES

---

**Arabic**  
(Native)

**English**  
(Excellent)
